It is the provider's responsibility to ensure that all information submitted is an accurate and current representation of the member's needs. Benefit Inquiry Request

Per the Arkansas State Prior Authorization Transparency Act effective 12/2023 Arkansas Total Care is providing Physicians and other healthcare providers the option to request a benefit inquiry.

What is a benefit inquiry? An inquiry by an Arkansas Licensed healthcare provider to a utilization review entity related to medical necessity, coverage or payment for prospective healthcare services, including prescription drugs, for an enrolled member of a healthcare plan of the applicable healthcare insurer for services or prescription drugs which are not subject to prior authorization requirements of the utilization review entity.

When to request a benefit inquiry? An in-network or out-of-network healthcare provider may submit a benefit inquiry to a healthcare insurer or utilization review entity for a healthcare service not yet provided to determine whether or not the healthcare service meets medical necessity and all other requirements for payment under a health benefit plan if the healthcare service were to be provided to a specific subscriber.

What is the difference between a Prior Authorization request and a benefit inquiry? A benefit inquiry is only applicable to services or prescription drugs which are not subject to prior authorization requirements. A prior authorization must be obtained by physicians and other health care providers from a health plan before a specific service is delivered to the patient to qualify for payment coverage.

Where can I find a benefit inquiry form? The request form can be found on the health plan's site located in provider resources under Medical Management.

<https://www.arkansastotalcare.com/providers/resources.html>

What is the turnaround time for a benefit inquiry? A healthcare insurer shall respond to a benefit inquiry authorized within ten (10) business days of receipt of information required to make a decision.

How will I receive final determination? Responses to a benefit inquiry shall be provided in the same form and manner as responses to requests for prior authorization.
